KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that enervating spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

DORMAN BRIDGMAN PASSES AWAY.

One of Hardwick's Prominent Citizens and Business Men.

Hardwick, Jan. 23.—One of Hardwick's oldest and foremost citizens and business men passed away at his home on Highland avenue early Wednesday morning, Jan. 22, after an illness lasting several months, although during that time Mr. Bridgman developed remarkable recuperative powers and was up and around a part of that time, but since the death of his wife not so very long ago, his health had failed rapidly and the end came peacefully.

Dorman Bridgman was born on the old Bridgman homestead in this place Feb. 7, 1837, and had lived a couple of weeks would have attained his 82d birthday. He was a son of Dorman Bridgman, sr., and a grandson of Capt. John Bridgman, and owner of all English stock, and being a descendant in the eighth generation, the family coming from Winchester, England, in 1640 and settling in Hardwick, Conn. His grandfather saw service in the Revolutionary war and took an active part in the battle of Plattsburg. His grandfather came to Hardwick in 1795, being one of the very first settlers, and cleared what is now known as the Bridgman farm, which consisted of 300 acres.

Mr. Bridgman attended the public schools in this town and completed his education at Peoples academy in Morrisville and later taking up the profession of teaching. Giving up this profession he was in the region of Pike's Peak searching for gold. In 1860 he returned to Hardwick, where he conducted a general hotel for about two years. Exchanging positions with his father,
